Running a busy restaurant in Los Angeles means every second on the dining floor counts.

From Santa Monica and Venice to Downtown LA and Pasadena, top dining venues are elevating their floor service with commercial delivery and bussing robots.

At Service Robot Co., we are your full-service robotics partner. We don't just ship equipment—we handle your entire automation roadmap end-to-end:

• **CHOOSE:** We help you select the exact delivery robot model tailored to your floor layout and service style.

• **INSTALL & INTEGRATE:** Complete mapping, navigation tuning, and seamless integration with your restaurant workflow.

• **TRAIN:** Comprehensive, hands-on onboarding for your front-of-house and kitchen staff.

• **MAINTAIN & REPAIR:** Dedicated 24/7 technical support, rapid local technician dispatch, and preventative service.

Let your waitstaff focus on hospitality while your robots handle heavy food runner and table bussing trips.

[LOCATION] **Serving restaurant operators across Los Angeles and all 50 states.**
